- Subscription assignment.** The portal provides a secure and easy interface to assign Visual Studio subscriptions. There is a bulk feature to make it easier to assign large quantities of subscribers from an Excel template, and an integration with Azure Active Directory allowing you to find subscribers from your Azure AD or manage access using Azure AD groups.

True-up Orders and Update Statements. The True-up Order process allows your organization to submit one annual order to account for all increases in qualified desktops and users as well as additional usage of previously ordered additional products in the prior year. This process is facilitated by your Software Advisor or Reseller.

- Your annual True-up Order is required at each Enrollment Anniversary between 60 days prior to and 15 days following this date. If you have ordered any additional quantities since your last Enrollment Anniversary, this annual True-up Order is still required per the terms of your Enterprise Agreement.
- Your final True-up Order or Update Statement is due upon Enrollment expiration and prior to renewal.
- These key dates are outlined in your Microsoft Volume Licensing Agreement Summary below.

- Your final True-up Order or Update Statement is due upon Enrollment expiration and prior to renewal.
- These key dates are outlined in your Microsoft Volume Licensing Agreement Summary below.
- When there is no increase in qualified users or desktops, and no additional product usage in the prior year, you must still submit an Update Statement. The Update Statement must be signed by an authorized signatory for Unidad Administrativa Especial de Catastro Distrital.

Please contact your Reseller or Software Advisor for information and assistance with your True-up Order.

Software Asset Management (SAM) Microsoft recommends organizations implement a good Software Asset Management (SAM) strategy to help with the True-up process and beyond.

- SAM can help ensure a more informed and accurate True-up. SAM can also help you control costs and risks, optimize software investments, and make better decisions about your short and long-term technology needs.
- As part of your contract value with Microsoft, you have the option to receive a Software Asset Management consultation from a Microsoft Certified SAM Partner. A Microsoft approved Gold SAM Competency partner will perform consultation.
- We have several resources available that you may use to establish or improve your SAM processes, including our main SAM page at: <http://www.microsoft.com/sam> This site includes a SAM optimization kit, links to several SAM self-service tools to assist with deployment discovery and a list of Certified SAM partners who you can contact directly. Microsoft Volume Licensing also offers guidance and tools for License tracking, an important SAM practice, at: <http://www.microsoft.com/licensing/about-licensing/client-access-license.aspx#tab=3>
- You may also reference the True-up Guide at <http://www.microsoft.com/licensing/trueupguide>, which is designed as a single point of reference to help you simplify and streamline the True-up process.
